TERMINAL BLOCKS

3

Single line terminal blocks and single line 2- and 3-tier terminal blocks

4

Insulated connection rails LPI

27

Multipolar terminal blocks

28

Branches

34

Terminal blocks and protective terminals

42

Torsion junctions

47

Accessories and equipment for terminal blocks

48

CURRENT COLLECTORS FOR OVERHEAD CRANES

55

Spring current collectors type M - small

56

Spring current collectors type D - big

57

Non-spring current collectors type B - side

58

Non-spring current collectors type G - top

59

Selection of current collectors and interchangeability table

60

CONTROL UNITS

61

N-527 type buttons in metal housing

62

Parts for buttons type N-527

100

Casings type N-527

102

Type 427 buttons in plastic housing

105

Parts for buttons type 427

124

Buttons in casing type 426

127

Casings type 426

131

DLAP control boxes

132

LIMIT SWITCHES	137
PAP type limit switches	138
PSP type limit switches	145
PAM type limit switches	153
PBM type limit switches	158
PSBM type limit switches	170
PDM type limit switches	175
PDP type limit switches	180
PEM1 type limit switches	185
PEM2 type limit switches	188
KLM type limit switches	191
D type limit switches	193
How to read operating diagrams	195
Instruction manual	196

ELECTROTECHNICAL EQUIPMENT	199
Installation equipment	200
Mounting rails, holders and bases, power fuse holder, edge protectors	
Grounding equipment	203
Grounding tape and terminals, grounding bands, potential-equalizing bus bars	
Cable and wire equipment	205
Markers and cable labelling systems, cable terminals, presses, mounting elements, glands, mounting bands, insulating hoses, thermoshrinkable hoses, spiral hoses	
URB extension cord with differential current switch	227
